Ginlong solar Wallis and Futuna

What is Ginlong Solis?
Ginlong Solis is one of the largest global inverter suppliersand has been active in the US market since 2009. Ginlong Solisoffers inverters with strong stability,high reliability,and excellent quality. Their 50-66kW three phase series string inverters are suitable for the installation of three-phase input pv systems in commercial and industrial PV plants.

Which ginlong inverters are available?
Three phaseinverters are available in 5,10 and 15 kW models. Ginlong produce a range of single and three phase grid tied inverters. The second generation single phase series inverters are the latest products of Ginlong,suitable for different types of household and commercial/industrial single phase input PV system installation.

What is a Solis 6kW 10kW inverter?
The Solis 6KW-10KW US version single phase string inverters are up to 4 MPPTs with 30K Hz switching frequency and ultra high efficiencyinverters. They are perfect for residential rooftop systems with different roof orientations. Ginlong Solis is one of the largest global inverter suppliersand has been active in the US market since 2009.

What is a Solis 50-66 kW string inverter?
The Solis 50-66kW string inverter is a three phase series inverter suitable for the installation of commercial and industrial PV plants with three-phase input. It features a compact and light design for easy installation by two people. Maximum efficiency is 99%and it includes eight to ten MPPTsand intelligent string monitoring.

What is a Solis single phase string inverter?
A Solis single phase string inverter is a 3.6-5KW US version inverter with dual MPPTs and over 98% overall efficiency. It comes with a built-in MLRSD transmitter,ensuring the safety of relevant personnel and regulation compliance.
