Can a high-frequency transformer isolate energy storage battery?

Compared with the conventional topology [22, 23], the energy-storage PCS proposed in this paper is isolated by a high-frequency transformer, which can cancel the power frequency transformer, reduce the volume of passive components, improve the power density of equipment, and reduce the insulation costs of energy storage battery.

Can a transformer-less high-voltage PCs be used in China?

In China, Shanghai Jiaotong University and China Southern Power Grid proposed a transformer-less high-voltage PCS in 2014. A set of 10 kV/2 MW/2 MWh device prototypes has been developed and applied in Baoqing energy storage power station of the China Southern Power Grid [22].

How many kV is a storage cell?

storage applications used in the electrical system. For example 11 kV or 13.8 kV. The connection of these systems [4,5]. Therefore, it is common to connect several cells link. In several applications, this voltage is usually 600 V, through an inverter.

Which transformer is required to connect a Bess to a MV grid?

The converter topologies in each stage are classified in topologies with transformer or transformerless. If low voltage switches are employed in the dc/ac stage for two or three level topologies, a step-up transformer is required to connect the BESS to the MV grid .

Do I need a step-up transformer?

If low voltage switches are employed in the dc/ac stage for two or three level topologies, a step-up transformer is required to connect the BESS to the MV grid . A disadvantage of these topologies is the high current on the transformer low voltage side, which can decrease their efficiency.

Which topologies are connected to a 13.8 kV/60 Hz grid?

All topologies are connected to a 13.8 kV/60 Hz grid. The 2 L and 3 L requires a power transformer to step-up the output converter voltage from 380 V to the grid voltage level. The MMC directly connected to the 13.8 kV grid without transformer. The MMC +ITX presents an insulation transformer (ITx) with turns ratio 1:1.
