The rear side can emit diffuse radiation, e.g. in a floor installation. Roof installation is not recommended as the back side is not exposed to UV radiation.

How much solar power do I need (solar panel kWh)? This depends in part on the amount of electricity you want to offset with solar power as well as the question "how much energy does a solar panel produce", so in order to get more specific let's talk about the actual number of solar panels. How many solar panels do I need then?
