

Aceleron energy Syria

Bromsgrove-based Aceleron is developing special batteries for use in Africa, designed to help drive the economy in rural areas there. It has secured £5m of funding for the programme from a range...

The company's press release claims that "Mobility 54's investment in Aceleron will accelerate the carbon-neutral ambitions in the continent by establishing sustainable long-term battery power, with reuse and rebuild operations supporting Africa's contributions to a circular economy". Aceleron sees the circular economy as a key strategy to live by.

Aceleron is an innovative clean technology company with a mission to become a world leader in sustainable battery technology, accelerating the global shift to clean energy usage through storage technology that is more accessible to all.

The company's batteries are small, lightweight, portable, reusable, and rechargeable cells that have built-in energy extraction technology and can convert used laptop lithium-ion batteries into energy storage units for future utility, enabling users in developing countries to utilize wasted batteries for producing alternative energy, hence ...

Aceleron is a UK-based clean energy company that develops lithium-ion battery (LiB) technology with sustainability in mind. The company's cutting-edge energy storage technology has been designed to enable easy ...

As the world emerges from the shadow of COVID-19, the urgency of addressing the climate crisis has never been greater. Recycling is an action we can all do from home to help reduce # greenhouse gas # emissions. The UK's recycling saves ...

SF partner Aceleron - co-funded with UK aid from the UK government and supported by Tripleline - has produced a report showing how lithium battery technology can play a critical role in reducing this deficit and deliver the SDG target of universal access to affordable, reliable and modern energy services across Africa by 2030.

We are very proud to announce that amongst 12 unique UK tech firms, Aceleron's CTO & Co-Founder Carlton Cummins will be taking part in the upcoming (February 22nd -24th) UK Black Tech Founders... Aceleron Energy - We are very proud to announce that...

Aceleron is an innovative UK-based advanced lithium battery developer aiming to accelerate the global shift to cleaner, more renewable energy and to empower people to benefit from sustainable battery technology.
