

Algeria backup for power outage

Will Algeria start supplying Lebanon with fuel?

REUTERS/Issam Abdallah/File Photo Purchase Licensing Rights CAIRO, Aug 18 (Reuters) - Algeria will immediately begin supplying Lebanon with fuel for its power plants, Algerian state radio said in a statement on Sunday, after Lebanon's electricity company said the day before its supplies were exhausted.

Why is Algeria facing a power shortage?

More than a decade ago, Algeria was facing severe electricity shortages during the summer, when temperatures can reach 113 degrees Fahrenheit during the day. The government needed to find a quick solution for cooling homes and businesses without waiting years to build large-scale power plants.

Can GE gas power cool homes and businesses in Algeria?

The government needed to find a quick solution for cooling homes and businesses without waiting years to build large-scale power plants. To help address the issue, Algerian officials called on GE Gas Power to install dozens of high-capacity gas turbines in northern Algeria and truck-mounted TM2500s in the rest of the country.

How many solar power plants will Algeria have by 2035?

Algeria is working on building 15 GW of solar energy by 2035, with several solar power plants planned throughout the country. The TM2500s help balance the grid during the energy transition, meaning they can be turned on or off depending on weather and demand.

Will GE gas power install high-capacity gas turbines in Algeria?

To help address the issue, Algerian officials called on GE Gas Power to install dozens of high-capacity gas turbines in northern Algeria and truck-mounted TM2500s in the rest of the country. Each TM2500 can deliver up to 36 megawatts (MW) of power and can operate efficiently at partial load.

*Prices reflect the federal tax credit but don't include solar panels, which you'll need to keep your battery charged during an outage. The difference between whole-home and partial-home battery backup systems is pretty self-explanatory: Whole-home battery backup systems can power your entire home in the event of an outage, whereas partial-home setups ...
