Ashalim is a thermal plant established in the Ramat Negev region in the Negev desert. It provides 250 MW of electricity (2,5% of the Israel's consumption), which makes it the largest of its kind in Israel and the 5th largest in the world. The station combines three kinds of energy: solar thermal energy, photovoltaic energy and natural gas.

Alstom closes the sale of its Energy activities (Power generation and Grid) to General Electric for an amount of approximately EUR12.4 billion [1]. Consequently the Group is today entirely refocused on rail transport.

Megalim Solar Power has been awarded a loan to finance the construction and operation of the Ashalim Thermal Solar Power Station in Israel. It will be Israel's first solar power plant. Megalim is a special purpose company ...

Megalim Solar Power has been awarded a loan to finance the construction and operation of the Ashalim Thermal Solar Power Station in Israel. It will be Israel's first solar power plant. Megalim is a special purpose company formed by Alstom (25.05%), BrightSource (25.05%), and NOY Infrastructure & Energy Investment Fund (49.9%).

Alstom has signed two contracts totaling around 120 million 1 with PSP Investment Ltd for the supply of two 150 MW pump-turbines with the associated balance of plant equipment and Alstom's Distributed Control System (DCS) for the 300 MW Gilboa pumped storage power plant in Israel.. Alstom also signed an eighteen-year operation & maintenance ...

Megalim's Ashalim Plot B plant is being constructed by a consortium under the leadership of Alstom, a French-based global leader in power generation, and will operate with BrightSource's innovative solar tower technology, developed to be a source of stable, reliable and responsible renewable energy, in comparison to other renewable energy ...

et de Kochav HaYarden et le tramway de Jérusalem.

Megalim Solar Power Ltd. today hosted a Cornerstone Ceremony in the southern Negev desert region of Israel to celebrate progress on the Ashalim solar project, one of the largest of its kind in the world. Megalim is a B.O.T. concession company owned by Noy Fund (49.9%), BrightSource (25.05%), and Alstom (25.05%).  
[[Footnote ownership structure.]] The [...]

The 121 MW Ashalim Thermal Solar Power Station (artist's rendition, pictured) will be built in the Negev desert by Megalim Solar Power Ltd, a company formed by Alstom (which holds a 25 per cent stake), US-based solar developer BrightSource Energy (25 per cent) and Israel's NOY Infrastructure & Energy Investment Fund (49.9 per cent).

Megalim Solar Power Ltd. ("Megalim") - a special purpose company formed by BrightSource Energy and Alstom - was informed today by Israel's inter-ministerial Tender Committee that it won the bid for the construction of a 121 megawatt solar thermal power plant.

The 121 MW Ashalim Thermal Solar Power Station (artist's rendition, pictured) will be built in the Negev desert by Megalim Solar Power Ltd, a company formed by Alstom (which holds a 25 per cent stake), US-based ...

I Israel det mycket stora variationer i elförbrukningen mellan dag och natt. Detta har historiskt tvingat landet till investera i spetslastkraftverk med ofta låg verkningsgrad och hög CO<sub>2</sub>-utsläpp. Med denna bakgrund har Alstom erhållit order för ett 300 MW pumpvattenkraftverk som kommer att ersätta dyr och smutsig fossil spetslastproduktion.

Alstom commits to contribute to a low carbon future by developing and promoting innovative and sustainable transportation solutions that people enjoy riding. From high-speed trains, metros, monorails, trams, to turnkey systems, services, infrastructure, signalling and digital mobility, Alstom offers its diverse customers the broadest portfolio ...
