

K2 Systems, a manufacturer of mounting systems for solar technology, has developed innovative system solutions for the international photovoltaic industry since 2004. Their product range includes innovative mounting solutions for sloped roofs, flat roofs, for the ground mounted as well as custom-made solutions for projects.

Which S-5! Attachment is The Right Way for Mounting Balance of System Components? Balance of System refers to all of the various components of a PV system beyond the actual modules themselves. At S-5!, we offer metal roof attachments for mounting these related solar PV components on both standing seam and exposed-fastened metal roofing.

Everything you need to buy solar panel mountings, fixings, brackets and rails are available from CEF. Perfect for roof, ground or wall mounted solar panels. We stock wood screws, M10 bolts and flange nuts, multi-rail mountings from big brands such as K2 and more.
