Who is Orison?

Orison What is Orison? Orison is an energy storage company. We make beautifully designed, indoor self-installable battery systems that are accessible to all energy consumers. Whether you are a homeowner or renter, live in a single-family home or a multi-family residence, or have a solar installation or rely on grid power only.

What is Orison's mission?

Orison's mission is to enable all energy consumers to control their electricity use, reduce their impact on the environment, and enable the implementation of a clean energy infrastructure around the world. We believe a bright new future is possible. We're in this for the future of our planet.

Where does Orison work?

Energy storage for all - Orison works in any home or apartment (including urban, multi-family).

How do Orison storage units work?

The storage units are paired with a single self-installable "stick-on" energy monitor placed at the main switchboard /circuit breaker panel. The system is scalable with the Orison Panel+expansion units.

Orison designs and manufactures smart, plug-and-play energy storage systems to enable reliable power, 100% renewable energy and a smart grid. they invite everyone to join the movement towards an abundant, renewable, and affordable energy future.
