

Bangladesh stellog energy group

That's where the Stellog comes in. Our talented teams of inquisitive personnel combine global experience with an extensive range of innovative technologies and methodologies. Their goal is to not only reinvigorate production and provide access to stranded or additional hydrocarbon reserves but to also minimize the need for future interventions ...

Drilling Services. We offer you a comprehensive range of drilling and completion engineering and production technology studies to help optimize your projects and create value by drilling fit-for purpose wells linked to the subsurface needs and surface capacity and constraints.

Our Marine services cover a wide variety of activities, our role is part of the risk assessment and management for an asset. We concentrate our efforts on the technical governance and operation expertise for an asset and focus our services to meet our client's needs.

Stellog Gas Solutions Our Gas production may involve LNG, FLNG, LPG, and Methanol using both Associated and Non-Associated gas from offshore stranded with modern technology. With our gas solutions and technology, we eliminate gas flares and reduce carbon emissions.

Stellog is an energy service company that renders exceptional Formation Evaluation and Drilling Services in the oil and gas exploration/ production industry. Stellog delivers highly innovative solutions that maximizes the value of her client's assets.

Stellog is an energy service company that renders exceptional Formation Evaluation and Drilling Services in the oil and gas exploration/ production industry as well as Gas commercialization, client asset development and Management. We are currently operating in full capacity in OML 40.

Stellog is an energy service company that renders exceptional Formation Evaluation and Drilling Services in the oil and gas exploration/ production industry as well as Gas commercialization, ...

Maximize your oil and gas field asset value using production optimization services from Stellog. All oil and gas field operators are continuously attempting to increase production and reduce costs from their assets. Production optimization of wells, facilities, and reservoirs is an ongoing activity, but sometimes help from outside is needed to ...

STELLOG Ltd since its establishment in 2008 and full offtake in 2012 is involved in Drilling, Intervention and Production services in the Oil and gas value chain. We are also known for identifying and delivering cutting edge technologies to ...

Bangladesh stelog energy group

Stelog is an innovative energy solution-driven company. We manage and operate oil and gas field assets, and service the upstream from drilling, and completions to productions, intervention, EPC, and Marine services providing solutions with the latest state of the art innovative technology.

Stelog specializes in both shallow and deep water pipelay construction. With several executed projects involving pipeline construction, Stelog has positioned itself as a competent market player. We execute projects in accordance with the highest quality ...

Stelog Upstream Services is an innovative solution-driven company to unleash the full potential of your assets from Drilling, Completion, Engineering, Procurement and Construction (EPC), and Marine to Production Services.

ENGINEERING. Stelog develops high complexity projects, from feasibility studies and design all the way through to execution, providing engineering, procurement, and construction services in EPC and EPCI mode, operation and maintenance services, protecting the environment and fostering the well-being of the communities where it operates.

That's where Stelog come in. In Conjunction with our technical partners we deliver characterization models incorporating all the characteristics of the reservoir that are pertinent to its ability to store and produce hydrocarbons, including petrophysics, geology, geomechanics, and geophysics.

Stelog is an energy service company that renders exceptional Formation Evaluation and Drilling Services in the oil and gas exploration/ production industry. ... Stelog can respond with an inter-disciplinary team matched to provide professional support related to the specific issue at hand. We can provide the
