Who makes lithium batteries in Buenos Aires?

Buenos Aires -- Last week, Argentina's President Alberto Fernánde z visited the first Argentine lithium cells and batteries manufacturing plant belonging to Y-TEC, a company that is part of state-owned energy giant YPF, and which will produce its first pilot models of lithium batteries in December, after taking delivery of components in October.

Why is Argentina launching a lithium battery plant?

A testament to this forward-thinking approach is the imminent launch of its premier lithium battery plant. This venture, realized in partnership with the U.S.-based Livent Corp, underscores Argentina's ambition to be a comprehensive player in the global lithium ecosystem.

Is YPF lithium launching a lithium battery project in Argentina?

The battery project is linked to another, more ambitious one, that of YPF Lithium, YPF's business unit that intends to compete in the exploration and production of lithium carbonate in northern Argentina.

Does y-TEC sell lithium in Argentina?

In the case of lithium, Y-TEC signed a contract with American company Livent, which extracts the mineral in Catamarca and, for the first time, sold part of its production in Argentina. According to Salvarezza, for industrialization to grow in scale, part of the production ought to be sold on the local market.

Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?

What types of batteries can I mail or ship internationally?

There are many types of batteries that have different requirements when you wish to mail or ship them internationally: Wet batteries, also known as flooded lead-acid batteries, are commonly found in vehicles and backup power systems.

Buenos Aires -- Last week, Argentina's President Alberto Fernánde z visited the first Argentine lithium cells and batteries manufacturing plant belonging to Y-TEC, a company that is part of state-owned energy giant YPF, and which will produce its first pilot models of lithium batteries in December, after taking delivery of components in October.

Today: battery are mainly transported in specific packaging and mounted within container on site; This leads to high complexity and long duration installation; How to design a system that can evolve over the years to
