Battery planet solar Armenia

Does Armenia need a solar power plant?
In 2019, the European Union announced plans to assist Armenia towards developing its solar power capacity. The initiative has supported the construction of a power plant with 4,000 solar panels located in Gladzor. Solar power potential in Armenia is 8 GW according to the Eurasian Development Bank.

What is the solar energy potential of Armenia?
Solar Energy SOLAR ENERGY Armenia has a significant solar energy potential. The average annual amount of solar energy flow per square meter of horizontal surface is about 1720 kWh

Is Solara a green energy company in Armenia?
THIS IS NOW! Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and promote its development. Why Choose Solara? There is a great potential for solar energy in Armenia.

Why do Armenians use solar energy?
The reason for this is that average solar radiation in Armenia is almost 1700 kWh/m 2 annually. One of the well-known utilization examples is the American University of Armenia (AUA) which uses it not only for electricity generation, but also for water heating. The Government of Armenia is promoting utilization of solar energy.

Are solar panels legal in Armenia?
Consumers are allowed to install solar panels with total power of up to 150 kW,and may sell any surplus to electricity distribution company Electric Networks of Armenia (ENA). In Armenia,solar thermal collectors,or water-heaters,are produced in standard sizes (1.38-4.12 square meters).

Where is the biggest solar water heater in Armenia?
The biggest solar water-heater in Armenia is located at Diana hotel in Goris,which has 1900 vacuum tubes that provide hot water for a swimming pool with 180 cubic meter volume,and for 40 hotel rooms.

Armenia is on the brink of a renewable energy revolution as the construction of its largest solar power plant, Masrik-1 is well underway in the Gegharkunik region. Spearheaded by the Shtigen Group, this ambitious project promises to reshape the country"s energy landscape and significantly reduce its carbon footprint.
