A new company aiming to deploy off-grid renewable energy solutions in the African country of Benin will carry out EUR8.5 million (US\$8.8 million) of electrification projects within a year. Les Soleils du Bénin has been launched by three partners: investment platform NéoT Offgrid Africa, GDS International, a subsidiary of French solar PV ...

Neargrid Solutions | 938 followers on LinkedIn. We eliminate polluting diesel generators by replacing them with renewable solutions | It is our mission to eliminate polluting fossil fuel fired electric generators with renewable energy solutions on construction sites where the local grid does not have the power to do so. The Neargrid Force & Boost are battery-based and ...

Paris (France), November 15, 2022 - NéoT Offgrid Africa, GDS International, and ARESS have agreed to join forces to enter the very promising rural electrification sector in Benin by creating a joint company, Les Soleils du Bénin. The partnership begins with a first flagship project aiming to electrify 12 localities in Benin within a year.

At Neargrid, we help construction companies with their energy transition. As a system integrator, we develop integrated solutions, fully tailored to the construction industry. Our mobile battery systems power construction sites. This makes it possible to replace diesel generators with electric solutions without burdening the distribution grid.
