Are solar generators a good option for your home?

Solar generators are quiet, lack any harmful fumes and exhaust, and are completely renewable. With a handful of well-placed solar panels, you can provide a FREE supply of backup power for your home. Today, solar home backup power is within reach of everyone.

Which solar generator is best for living off the grid?

You'll be hard-pressed to find a solar generator better suited for living off the grid for an extended period than the Bluetti AC200 Max. It boasts a substantial 2,048Wh capacity, allowing you to power your whole life off it longer than most portable generators.

Can a solar generator power a whole house?

Probably not, unless you get a large solar generator and you have a tiny home. Solar generators are meant to power and charge just a few electronics, not the entire house. If you want to backup your entire house, go with a wired system complete with solar panels on the roof and a high-capacity battery bank.

What is the best solar generator for home backup?

The Renogy Lycanis is one of the largest and most capable solar generators in the market right now. It's designed to be wired to a home power grid. You can even set it up as a UPS, ensuring essential appliances stay powered in a blackout. That, plus its fast charging performance makes the Lycan 5000 one of the best solar generators for home backup.
