

Does Moldova have a good energy sector?

Moldova is also on the right path to developing a sound institutional structure in the energy sector, informed by better statistical data. The National Bureau of Statistics (NBS) is commended for its efforts to improve energy data collection and reporting.

Could Moldova be a green revolution?

With a population of just over 2.5 million people, Moldova is an oft-forgotten country that's probably the last place many would think could be at the forefront of a green revolution--and for good reason. According to the International Energy Agency, it is one of the least energy self-sufficient countries on Earth.

Does Moldova have a power plant?

The country has a single, lone power plant, which is problematically located in the Russian-backed separatist region of Transnistria. This is a recipe for an energy disaster. Moldova's gas sector is also almost entirely controlled by a monopoly called Moldovagaz, which is 51% owned by Russia's gas giant Gazprom.

What is Moldova's energy self-sufficiency?

Moldova's energy self-sufficiency is among the lowest in the world: only around 25% of its energy demand is covered by domestic production, consisting almost entirely of solid biomass and variable renewable energy sources.

Where is a substation delivering electricity in Moldova?

An electrical substation that delivers electricity to Chisinau, near the village of Negresti, Moldova on Nov. 30, 2022. Andreea Campeanu--The New York Times/Redux Jayanti is an Eastern Europe energy policy expert.

Is Moldova a self-sufficient country?

According to the International Energy Agency, it is one of the least energy self-sufficient countries on Earth. Moldova is utterly dependent on energy imports--99% of its oil and 100% of its natural gas is imported. The country has a single, lone power plant, which is problematically located in the Russian-backed separatist region of Transnistria.

Moldova can only meet one quarter of its energy needs with its own resources and is dependent on gas and oil imports from abroad. For this reason, the energy crisis resulting from Russia's attack on Ukraine has had a particularly negative impact on Moldova's citizens and economy: 60 per cent of the population is currently suffering from ...
