

Bhutan accord energy

Why is Tata Power partnering with Bhutan?

Tata Power CEO and MD Dr. Praveer Sinha said, "This partnership reinforces Tata Power's position as a clean energy leader in the region. Together, we aim to support Bhutan's energy ambitions and address growing power demands in both countries with reliable, round-the-clock clean energy."

Why is Bhutan partnering with India?

Bhutan's hydropower capacity peaks during the monsoon, complementing India's summer energy demand patterns. The collaboration is expected to enhance regional energy integration, particularly with emerging opportunities for cross-border power trade, as evidenced by Bangladesh's recent agreement to import power from Nepal through India.

Why is Bhutan partnering with hydropower?

Bhutan's economy, projected to grow by 7.2% in FY25, is heavily reliant on hydropower, which constitutes a critical pillar for economic development and green job creation. The partnership is also seen as a step towards achieving Bhutan's diversification goals, moving beyond traditional hydropower to include solar and geothermal energy.

Does Bhutan need hydropower?

Broader implications Bhutan's economy, projected to grow by 7.2% in FY25, is heavily reliant on hydropower, which constitutes a critical pillar for economic development and green job creation.

Prime Minister Narendra Modi and Bhutan PM Tshering Tobgay reviewed all aspects of bilateral energy cooperation, welcomed the expert-level discussions on the 1200 MW Punatsangchhu-I Hydro-electric ...

Prime Minister Tshering Tobgay highlighted the significance of this partnership in a recent social media post, emphasizing Bhutan's commitment to harnessing its vast renewable energy resources. The project will leverage 4,500 MW of hydropower and 500 MW of solar energy, tapping into Bhutan's immense potential as a clean energy powerhouse.

The Anil Ambani led Reliance Group has entered into a strategic partnership agreement with Druk Holding and Investments Ltd. (DHI), the commercial and investment arm of the Royal Government of Bhutan, to undertake various initiatives aimed at bolstering the investment in the renewable and green energy landscape of Bhutan. Bhutan, incidentally is ...

India-based Tata Power has joined forces with Bhutan's generation utility Druk Holding and Investments' subsidiary, Druk Green Power (DGPC), to develop at least 5GW of clean energy capacity in Bhutan. The partnership aims to strengthen Bhutan's regional energy security, as well as support the transition to renewable energy.

Bhutan accord energy

With Tata Power aiming to increase its renewable portfolio to 70% by 2030 and Bhutan striving for regional energy integration, the collaboration underscores a shared commitment to clean energy and sustainable growth.

Together, we are building 5000 MW of clean energy capacity that will help harness Bhutan's hydropower potential and support both countries' growing energy demands with reliable and round-the-clock clean energy supply.

The photovoltaic (PV) parks will be built by Tata Power Renewable Energy. The collaboration aims to support Bhutan's ambitions to lift its total power capacity to 25,000 MW by 2040 and improve its energy security.

Tata Power Renewable Energy Limited (TPREL), a subsidiary of Tata Power, will lead the development of the 500 MW of solar projects across Bhutan. Tata Power also has a transmission project of a 1,200 km long Tala transmission line that evacuates clean power from Bhutan to India.
