

Biolite solarhome 620 battery expansion Kenya

Does BioLite have a solar home 620 kit?

Recently, the company even introduced its new SolarHome 620 kit, which brings an affordable solar power solution to remote cabins and those living the #vanlife too. But when BioLite first designed the SolarHome, it didn't necessarily have its usual customer base in mind.

What is a SolarHome 620+?

Turn any off-grid structure into an electrified home with a kit that packs down to the size of a shoebox. Perfect for cabins, sheds, vans, and emergency kits. BioLite's first crossover product, the SolarHome 620+ is currently in use in millions of homes across sub-Saharan Africa, delivering reliable daily energy to off-grid families.

How many SolarHome kits are there in Kenya?

Designed to be easy to install and require very little maintenance, the SolarHome is already having a dramatic impact on the lives that it was designed to help. BioLite says that over 5,000 SolarHome kits are already installed and operational throughout western Kenya, where the product has been received with gratitude.

How much does a BioLite solar generator cost?

BioLite is currently completely sold out of its initial batch of SolarHome kits, which are priced at \$150. More are expected to become available in February. EcoFlow launches Delta 2 Max solar generator for home emergencies and outdoor adventures

How does a solar home 620 work?

The SolarHome 620 kit includes a 6-watt solar panel that is placed on the roof of a house, cabin, or van. That panel collects energy from the sun all day long, storing it in a 20-watt-hour control center that is located inside the structure itself.

Does BioLite have a customer base?

But when BioLite first designed the SolarHome, it didn't necessarily have its usual customer base in mind. In fact, the product was originally built with the idea of bringing light and power to remote corners of Kenya, a place where those resources are often at a premium.

BioLite's first crossover product, the SolarHome 620+ is currently in use in millions of homes across sub-Saharan Africa, delivering reliable daily energy to off-grid families. Turn any off-grid structure into an electrified home with a kit that packs down to the size of a shoebox.

SolarHome 620+ - SolarHome's name comes from the 6-watt solar panel and 20 watt hour battery inside the control box that keeps the whole system running.
