A properly sized solar array and battery bank deliver energy independence and uninterrupted operation. Contact Apex Mart to schedule a free site evaluation from our battery backup experts. We size solar panel capacity to match your average electricity usage with batteries to power critical loads during grid failures.

Scenario #2: More solar is being generated than your home needs. Your home is 100% powered by solar and the battery charges from the excess solar. Scenario #3: The grid goes down. Your battery system isolates itself from the grid and your home is powered by the battery and solar - if there is any solar available.

A properly sized solar array and battery bank deliver energy independence and uninterrupted operation. Contact Apex Mart to schedule a free site evaluation from our battery backup experts. We size solar panel capacity to match your ...
