CW Storage; günes, rüzgür ve hidrojen gibi yenilenebilir enerji kaynaklarından &#226;retilen enerjiyi depolamak ve yünetmek i&#231;in tasarlanmıştır. BESS (Battery Energy Storage Solution) konteynerleri; enerji depolamanın uygun maliyetli, modüler, taşınabilir ve esnek bir şekilde konumlandırılabilir olmasını sağlar.

Its factory in Ankara can assemble 200 energy storage system enclosures a year, making products for residential, commercial and industrial (C& I) and utility-scale battery storage, equipped with Inovat's own energy management system (EMS). Due to their R& D nature, the handful of projects Inovat has already done also cover a multitude of use cases.

What is Battery Energy Storage System (BESS) and how does the value chain emerge? Battery energy storage system products have been recognized as an effective and viable solution in the market today to minimize the potential risk of blackout events and load fluctuations so that the flexibility and stability of the grid is ensured.

You can only use the beequips in your case, to get them there from the storage, you open the storage, click a beequip, and then click "add to case". If your case is full you need to first put one in storage before taking a different one out. If both storage and case are full you need to delete one before being able to swap beequips.
