How much energy will release supply in Cameroon?

When the extensions of the projects are completed, Release's projects in totality will supply energy to about 200,000 households in Cameroon, according to ENEO estimates, generating an annual production of about 141.5 GWh of electricity.

Does Scatec have a solar power plant in Cameroon?

10 June 2024, Cameroon/Norway: Release by Scatec has entered into two new lease agreements with the national electricity company ENEO in Cameroon, expanding its existing solar and battery storage power plants in the country to 64.4 MW of solar and 38.2 MWh of batteries.

Why is Eneo reaffirming its partnership with Cameroon?

By increasing the installed capacity in the country, we are reaffirming our collaboration with ENEO and our commitment to Cameroon as a key market for our solutions," says Hans Olav Kvalvaag, CEO at Release.

Prospective analysis indicates increasing trends in BES losses in all ecosystems. Under Cameroon"s economic development scenarios, models and options, at least 20% of BES is expected to be lost by 2050. The strengthening and effective operationalisation of policies, strategies, plans, and programmes becomes a major challenge.

Cameroon is one of the most biodiverse in Kenya, with tropical forests, tropical wooded savannah, semi-arid, montane, freshwater and marine and coastal ecosystems. It is also one of the four countries that received support under the first phase of BES-Net to carry out its national ecosystem assessment process.

## Cameroon bess presentation

It gained independence in 1960 and has faced issues with neighboring Nigeria over control of the oil-rich Bakassi peninsula. Currently Cameroon faces security issues from Boko Haram as well as problems with infrastructure, unemployment, corruption and climate change. The official languages are English and French.
