

In 1997, Tomassic reported 66 corals species in 22 genera under 10 families along the Saint Martin's coastal waters [7]. In 2008, Sultana revealed only 40 corals species on Saint Martin's Island [8]. At a depth of about 0.5 m to 2.0 m in the rock pools, large coral faunal colonies were observed at Saint Martin's Island [9].

A significant focus of the Energynautics report is the integration of renewable energy sources into St. Maarten's power grid. The consultancy identified solar PV installations ...

PHILIPSBURG:-- In a proactive response to the ongoing energy crisis that has significantly impacted the business community, particularly micro, small, and medium-sized enterprises (MSMEs), Member of Parliament Ardwell Irion and National Alliance candidate Edsel Gumbs recently engaged in a fruitful discussion with the management of Qredits.

Encouraging decentralised solar energy production could significantly contribute to St. Maarten's overall energy mix, reducing strain on NV GEBE's infrastructure and fostering a more sustainable energy environment.
