

Cuba novel energy solutions

How can Cuba build a more resilient energy system?

Building a Cleaner, More Resilient Energy System in Cuba recommends numerous ways by which domestic policy in Cuba can prioritize working towards a more sustainable, resilient grid -- especially by investing in the energy transition-- and ways in which international cooperation can support these goals.

Why is the energy sector at a crossroads in Cuba?

Cuba's energy sector is at a crossroads. The country's mostly fossil fuel-fired energy system faces a number of longstanding and serious challenges, including breakdowns at aging power plants, decreasing fuel imports and fuel shortages, and the growing threat of climate change-related disruptions.

What is Novel Energy Solutions?

Novel Energy Solutions is a company that is dedicated and driven to build a clean energy future in a growing industry. One company, many hats. Its team is united through a common motivation - their passion to develop solutions that are good for people, the planet, and its clients' bottom line.

Is Cuba's energy infrastructure in a precarious state of aging and disrepair?

The report highlights the issue that not only is Cuba's energy infrastructure in a precarious state of aging and disrepair, but also that its entire energy system relies heavily on external aid and imported fossil fuels.

Should Cuba update its energy grid?

While small-scale, such renewable energy initiatives can reduce pressure on the energy grid and provide relief in especially vulnerable places. Due to rising temperatures and increasingly unreliable energy infrastructure, action to update Cuba's energy grid is urgently necessary.

How will Cuba's relationship with other countries impact the energy transition?

Cuba's relationships with other countries will be key to realizing the energy transition. Since 2000, Venezuela has been Cuba's primary source of imported oil. However, political and economic troubles in Venezuela caused oil exports to Cuba to fall by about half, resulting in Cuba increasingly seeking oil imports from Mexico and Russia.

Novel Energy Solutions, a fast-growing solar energy firm serving the greater Midwest, has made a significant addition to its growing team by hiring David Shaffer as Director of Policy and Government Affairs. Shaffer is a ...

Cliff traveled on behalf of Minnesota agriculture as a youngster when he visited Cuba as a member of the state's earliest effort to normalize agricultural trade in the post-embargo era.
