Who is DPA solar?

The company was launched in 2011 and is a subsidiary of Econet Global, and has operations across Africa, including in Kenya, South Africa, Zimbabwe, Zambia, DRC, Ivory Coast and Togo. DPA supplies Commercial & Industrial businesses with efficient solar energy, without an initial capital outlay and on lease financing terms.

What does DPA stand for?

Distributed Power Africa (DPA) is a distributed energy company, leading in innovative renewable solar energy solutions for Africa. The company was launched in 2011 and is a subsidiary of Econet Global, and has operations across Africa, including in Kenya, South Africa, Zimbabwe, Zambia, DRC, Ivory Coast and Togo.

What does DPA do?

DPA supplies Commercial & Industrial businesses with efficient solar energy, without an initial capital outlay and on lease financing terms. Our goal is to ensure that businesses and individuals have access to affordable and efficient green energy at zero start-up cost.

Does DPA have a distributed energy strategy?

DPA has already commissioned projects for Commercial & Industrial companies like Makro, Builders Warehouse, Africa Data Centres and Liquid Intelligent Technologies in South Africa. The company's distributed energy strategy aligns with the Integrated Resource Plan (IRP) 2019, which anticipates decommissioning most coal-fired power stations by 2030.

Why is South Africa partnering with DPA?

According to Norman Moyo, CEO Africa of DPA: "South Africa is facing long hours of load shedding and increasing electricity costs. This partnership comes at an opportune time where the country is pushing for updated renewable energy policy, and the world is facing a sudden rise in diesel costs.

Why should South Africa Invest in DPA?

In addition, this investment will allow DPA to generate hundreds of new construction jobs in the country, adding a much-needed boost to the local economy. According to Norman Moyo, CEO Africa of DPA: "South Africa is facing long hours of load shedding and increasing electricity costs.
