

Enercon europe Bosnia and Herzegovina

Who is Enercon Western Europe?

ENERCON Western Europe |23,142 followers on LinkedIn. Energy for the World |As a pioneer of wind energy technology and a partner of the energy transition, ENERCON specialises in the turbine and technology development, production, sales and servicing of onshore wind energy converters.

What applications does Enercon technologies support?

Enercon Technologies Ltd has extensive experience supporting a wide variety of military applications, including avionics, UAV's, aircraft, C4ISR, electronic warfare, ground vehicles, radar arrays, missiles and anti-missile defense, surface ships, submarines and more. Examples of applications Enercon Technologies' has supported include:

Where is Enercon based?

ENERCON began its activities in the Western Europe region in 1992 and has seen continuous growth since then. The region consists of six countries - United Kingdom, Ireland, France, Belgium, the Netherlands and Luxembourg. The team is made up of dynamic professionals from various backgrounds, committed to working together on the energy transition.

Where is Enercon GmbH registered in Germany?

Enercon GmbH is a Company incorporated and existing under the laws of Germany with a Registered Office at Dreekamp 5, D26605, Aurich, Germany.

Where are Enercon wind turbines made?

With ENERCON, you can rely on: At its production sites in Germany, Poland, Portugal and Turkey, ENERCON manufactures the machine house, generator, hub and rotor blade components that go into our wind turbines. We also collaborate with partners in China, India and Turkey on manufacturing rotor blades and generators.

What is Enercon & how does it work?

Pursuing its mission of 'Energy for the world', ENERCON has driven sustainable energy generation from onshore winds since 1984. ENERCON began its activities in the Western Europe region in 1992 and has seen continuous growth since then. The region consists of six countries - United Kingdom, Ireland, France, Belgium, the Netherlands and Luxembourg.

The MILTECH 910-PoE is a rugged Power over Ethernet (PoE) switch that supports 60W of PoE on all 8 Gigabit Ethernet 10/100/1000 ports. It supports both 802.3af and 802.3at standard devices for PoE-enabled cameras, Wi-Fi access points, tactical IP phones, mesh nodes and other devices. The MILTECH 910-PoE is fully managed with advanced network features such as ...

discuss your requirements. For our US team call (603) 267-8865, for our European team call: +41-41-740-4554. Configurations created for specific requirements will be assigned a new variant part number. [Learn More](#)

Koenig: "The fight against corruption is one of the most important things that Bosnia-Herzegovina needs to do if it wishes to join the European Union, including strengthening protection for ...

The M3169 is a military AC to DC power supply. This rugged converter accepts an AC input range from 85 to 265VAC, 50/60/400Hz. It provides a single DC output from 3.3V to 300V, up to 1000W with custom outputs available. The M3169 is based on the popular M169 AC to DC Power Supply for airborne, UAVs and ground mobile applications. Designed as an IP67 unit (to withstand ...

M9516 is an 8-channel VME form factor power distribution unit, designed for airborne and ground applications. This power management solution distributes 28VDC (current is up to 200A) through overload and short-circuit protected switches. The M9538 supports CAN and RS-485 communication to control and configure the device. Complies with MIL-STD-1275, MIL-STD ...

Enercon Technologies Europe AG Military-Grade power and networking solutions ITAR & CE. We offer Mil-Grade AC DC, DC DC power supplies, VPX Vita 62, UPS, rugged switches, routers, USB HUBS, media converters and custom solutions for military applications.

The MILTECH 9012 is a member of the MILTECH 9012 family that offers flexible alternatives for LAN, LAN/WAN, and customizable networking. All family members are MIL-STD, fully managed, and military grade, with 12 triple-speed (10/100/1000Mbps) ports. The MILTECH 9012 is a unique combination of both a Layer 2 Ethernet switch and a Layer 3 Ethernet router.

State-owned power company Elektroprivreda Republike Srpske (ERS) in Bosnia and Herzegovina is considering the possibility of adding refuse-derived fuel (RDF) to coal in its Gacko thermal power plant. The utility's plan envisages a pilot project for burning up to 1,200 tons of waste per day.

M1012 is a military grade rugged 1.25kW/1.5kVA full double conversion on-line 1U UPS. It has internal modular design, which allows it to be easily tailored to almost any customer requirement, while delivering stable, regulated and protected output voltage for the load. Several UPS units can be connected in parallel to support higher loads (up to 6 units for 7.5kW/9kVA total), or in 3 ...

voltage and current telemetry. The M9538 input range is nominally 28V but can support between 6 to 33V and is designed to meet MIL-STD-1275, MIL-STD-461 and ...

At its production sites in Germany, Portugal and Turkey, ENERCON manufactures the machine house, generator, hub and rotor blade components that go into our wind turbines. We also collaborate with partners in China, India and Turkey on ...

The MILTECH 9126 supports 24 x 1G copper ports and 2 x SGMII interfaces for direct connection to 2 x 1G Fiber ports. Designed for complex traffic applications featuring IEEE-1588 capabilities and Synchronous Ethernet (SyncE). With dimensions of only 130x87mm including integrated PHY and magnetics/transformers, the MILTECH 9126 reduces integration risks.

Enercon Technologies Ltd has extensive experience supporting a wide variety of military applications, including avionics, UAV"s, aircraft, C4ISR, electronic warfare, ground vehicles, radar arrays, missiles and anti-missile defense, surface ships, submarines and more. Examples of applications Enercon Technologies" has supported include:

Enercon to supply turbines to Is Enerji, Polat Enerji for 2.5 GW of wind farms. 28 November 2024 - German firm Enercon forged an alliance with Turkey-based Is Enerji and Polat Enerji at the German-Turkish Energy Forum ...

At its production sites in Germany, Portugal and Turkey, ENERCON manufactures the machine house, generator, hub and rotor blade components that go into our wind turbines. We also collaborate with partners in China, ...

The M4012 is a rugged, highly efficient, military grade 3U VPX 28V DC to DC PSU card that provides six outputs per VITA 62 and is capable of delivering up to 350W of output power with 9-15 Joules of holdup for MIL-HDBK-704-8, LDC201 requirements. Features include: conduction cooling, reverse battery protection, internal EMI filters. The DC input range is 18-50V per MIL ...

AIKO and Tibra Pacific have signed a significant procurement contract for the remaining 58 MW capacity of Bosnia and Herzegovina"s largest utility power station project, which will use AIKO"s high-efficiency ABC Stellar series modules, which have an ...

M362 is a rugged high performance 2.5KW/3KVA, 3U rackmount with recessed I/O connectors UPS. Fully compliant with MIL-STD 1399, the M362 serves in Cooperative Engagement Capability (CEC) airborne/naval radar systems, combine multiple sensors to deliver enhanced performance to deal with long ranges threats. It accepts 115/230VAC Input, distributes 115VAC and can ...

Bosnia and Herzegovina [a] (Serbo-Croatian: Bosna i Hercegovina, ????? ? ??????????), [b] [c] sometimes known as Bosnia-Herzegovina and informally as Bosnia, is a country in Southeast Europe, situated on the
