Powered by Pearl Organisation. Energy Box is a leading vertical media company specializing in solar, wind, energy storage, and green hydrogen.

What's a good experience with the Energy Box Ltd?

We had a fantastic experience with The Energy Box Ltd. We got in touch with them after another company let us down badly and they spent a lot of time taking us through the information and details before we went ahead. All the work was done in one day and the team were brilliant.

Where can I buy solar panels in the UK?

At the end of September 2013, retailer IKEA announced that solar panel packages for houses would be sold at 17 UK stores by July 2014. The decision followed a successful pilot project at their Thurrock store, during which one system was sold almost every day. The panels were manufactured by the Chinese company Hanergy.

Does energy box charge a 12 panel system?

The Energy Box supplied and fitted my 12 panel system with 6.5kwh Growatt battery on 6th April. The pre and post sale service was excellent - Zoe and the team explained everything and have even taken away some queries to help me get the best from my system when charging my Tesla car.

The perfect mix of solar panels to meet up your energy needs for most of the year, and a home battery to store energy for later use. This allows you to enjoy 100% green power even at times when the sun is not shining. Your solar package is right around the corner. United Kingdom.

Solar power has a small but growing role in electricity production in the United Kingdom. There were few installations until 2010, when the UK government mandated subsidies in the form of a feed-in tariff (FIT), paid for by all electricity consumers.

To provide you with a solid indication of the costs and possibilities of solar panels and a solar battery, we have selected three fixed packages. Our advisers will be more than happy to tell you which package suits your needs best or build a bespoke solution for you completely free. Solar installations are exempt from VAT in the UK.

We are a local family-owned business and have been in the renewable energy market since 2010. Our aim is to help businesses and homeowners like ourselves live a greener lifestyle, save money on their energy bills and make the right choices for their circumstances, without any pressure!
