Why do we need solar power in Tonga?

Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Tonga, the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment.

What is a solar farm & how can it help Tonga?

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of 2025.

Who are Sunergise New Zealand & Tonga Power Limited?

This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team.

Does Tonga use fossil fuels?

Statistics show that, as of 2020, nearly all electricity in Tonga came from fossil fuels. As an island country with a total surface area of merely 290 sq mi, Tonga's power generation heavily relies on imported fossil fuels.

Where is Tongatapu solar farm located?

Prime Minister of Tonga today announced the official launch of the 6-MW power purchase agreement (PPA) based Tongatapu Solar Farm located at Fualu, Tongatapu, which has supplied electricity to over 10,336 households since August this year.

Despite the abolition of the Tonga Electric Power Board in 2008, By-Laws made under the authority of the TEPB Act remain in full force and effect [TEPB Repeal Act 2007, section 2(2)(b)] and are policed by the Electricity Commission.

Tonga Power Limited is Tonga's sole electricity provider. We generate, distribute and sell electricity to 25,043 customers in the Kingdom of Tonga, including the outer islands of "Eua, Ha"apai & Vava'u.

Mr. Finau Moa, CEO of Tonga Power Limited, stated: "This collaboration with JICA is a critical step forward in ensuring that Tonga's energy infrastructure can support its ambitious renewable energy targets. We are excited to strengthen our grid operations and make substantial progress towards a sustainable future."

Battery Energy storage systems will be able to store renewable energy generated from our existing solar and wind generation sites and distribute it to the people of Tonga when required. This second Battery Storage system main function will be load shifting which will facilitate increasing capacity of renewable generation in the grid by storing ...

The Tonga Outer Island Renewable Energy Project (OIREP) will construct Solar Photovoltaic (PV) power plants on 8 outer islands. The "on-grid" portion will be allocated to Ha"apai and "Eua, while the "off-grid" portion will incorporate "Uiha, Nomuka, Ha"ano, ...

It is reportedly the largest solar power project in the South Pacific, replacing 18% of current diesel-fueled power with solar energy on the Tongatapu island. This solar project was completed under the partnership ...

Tonga Power Limited is Tonga's sole electricity provider. We generate, distribute and sell electricity to 25,043 customers in the Kingdom of Tonga, including the outer islands of "Eua, ...

The Sunergise Tongatapu Solar Farm is the largest in the South Pacific. It was built as part of a power purchase agreement between Sunergise New Zealand Limited, a Todd Corporation solar company and Tonga Power Limited, ...

The system includes a 350kW solar plant and a 1003kW/1856kWh battery energy storage system, which will enable TPL to integrate renewable energy into its electricity grid and provide reliable power to customers.

Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided emissions from renewable power is calculated as renewable generation divided by fossil fuel generation multiplied by reported emissions from the power sector.

It is reportedly the largest solar power project in the South Pacific, replacing 18% of current diesel-fueled power with solar energy on the Tongatapu island. This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB).

The commissioning of the Niuatoputapu Solar Hybrid System & Mini Grid is a significant milestone for Tonga. It brings the country's total electricity accessibility to around 99%. The project will also help to reduce Tonga's reliance on imported fossil fuels, which will benefit the environment and the economy.

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver

utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

Ha'apai is the first island in Tonga to reach 50% renewable energy, another step towards Tonga's overall goal of achieving 50% Renewable Energy over by 2020. The solar plant achieved positive results in terms of gender balance with almost 40% of those that were employed in the project were female lines technicians.

TPL continues to help Tonga Energy Smart by providing energy Savings Tips to its customers: Fridge/Freezer. ... Tonga Power Limited is Tonga's sole electricity provider. We generate, distribute and sell electricity to 25,043 customers in the Kingdom of Tonga, including the outer islands of "Eua, Ha'apai & Vava'u. ...

NIUAFO"OU, TONGA (14 October 2024) -- The Asian Development Bank (ADB) and the governments of Tonga and Australia commissioned the Niuafou hybrid minigrid as part of the cofinanced Tonga Renewable Energy Project. The new grid will provide clean, reliable, and efficient electricity supply up to 24 hours per day to the people and businesses of Niuafou.

Moehau has a skilful leadership in his volunteer work of the Tonga Tourism Association as President as well as a Board Member and Chair of the Tonga China Friendship Association Working Committee. He brought the Associations unprecedented benefits and talent at motivating other volunteers is phenomenal. Energy Commission Address: Kolomotu'a,

The Sunergise Tongatapu Solar Farm is the largest in the South Pacific. It was built as part of a power purchase agreement between Sunergise New Zealand Limited, a Todd Corporation solar company and Tonga Power ...

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of 2025.

Tonga Power Limited is continuously expanding its Renewable Energy Portfolio, through the introduction of solar generation and most recently Tonga's first ever large scaled wind generation system in Niutoua. ... Tonga Power alongside the government of Tonga has invested in providing a sustainable power supply for the Kingdom of Tonga through ...

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's ...

Diligently served the government of Tonga for 40 years in the Tonga Defense Services, now called His Majesty's Armed Forces, and the Ministry of Foreign Affairs. Address: Tu'atakilangi Nuku'alofa Tonga
