What is New Jersey's \$156 million solar energy program?

State officials on Thursday kicked off a \$156 million solar energy program with the aim of powering New Jersey's low-income and disadvantaged communities.

What is a solar energy certificate in New Jersey?

In 2004, New Jersey adopted a program promoting the use of Solar Renewable Energy Certificates (SRECs) to meet the solar energy carve-out of the state RPS. In the 2011 Energy Year, 306,000 SRECs (or MWhs of solar electricity) must be purchased by electricity suppliers in the state in order to meet the state solar requirement.

Should you go solar in New Jersey?

New Jersey homeowners have much to gain from switching to solar. The average lifetime savings from going solar in New Jersey is \$23,806. Plus, it only takes 10 years for solar panels to pay for themselves, making the Garden State one of the best places for solar in the country.

Will New Jersey's \$156 million solar for all award save energy?

“New Jersey's \$156 million Solar for All award will result in significant emissions reductions and millions of dollars in energy bill savings, including for thousands of low-income, disadvantaged community households,” New Jersey Board of Public Utilities President Christine Guhl-Sadovy said Thursday at a rooftop community solar site in Edison.

Does New Jersey have a solar credit program?

New Jersey offers tax incentives and rebates to encourage residents to participate in its clean energy initiatives, making the switch to solar power more affordable and appealing. Residents of New Jersey can take advantage of the federal solar credit program, which has undergone recent changes.

Does New Jersey have a solar incentive program?

Finally, the state of New Jersey has the Successor Solar Incentive (SuSI) program, which is an updated version of its previous Solar Renewable Energy Certificate (SREC) program. SuSI is basically a net metering program that gives you renewable energy credits for the excess energy your solar panels produce.

Key Takeaways. New Jersey offers a state-wide clean energy program that is a one-stop location for all solar programs offered to residential, commercial, or even local government divisions.; Residents of New Jersey can still take advantage of a 30% tax credit through the year 2032, with varying tax credit percentages in the following years offered by the Federal Solar Tax Credit.
