

During 2024 and 2025, falling equipment prices and supportive policies will accelerate the development of U.S. energy storage market. However, C&I energy storage sees limited growth and requires more time to yield progress, given its premature market mechanism and suppliers failing to introduce effective profit models to manufacturers.

The Botswana Renewable Energy Support and Access Accelerator (RESA) Project was approved on July 11, 2024. This project aims to transform Botswana's energy landscape by enabling renewable solutions and improving electricity access. Minister of Minerals and Energy Lefoko Moagi emphasized the importance of this support. He highlighted that the ...
