Developer and optimiser Ingrid Capacity and investor BW ESS have commissioned a 211MW/211MWh BESS portfolio in Sweden, the largest in the Nordics, they claimed. The inauguration of the 14 battery energy storage system (BESS) projects last week was attended by the minister for climate and the environment in Sweden, Romina Pourmokhtari.

Cayman Islands must do its part, however small, to mitigate impacts on climate change. The Policy therefore considers using local targets for Greenhouse Gas emissions as the driver for determining other targets. The opportunity to achieve lower electricity costs is ...

Bird electric scooters are now available to rent in Grand Cayman and they can be found in Camana Bay and various other points around Seven Mile Beach and George Town. E-scooters are 100% electrically charged and a great alternative to bicycle transportation.

for the Cayman Islands, this policy update includes new policies for energy resiliency to protect against storms, electric vehicles and energy storage, all of which support greenhouse gas emission reductions. In keeping with the Ministry of Sustainability & Climate Resiliency's mission to enhance sustainability
