

Estonia top 10 solar companies

What is Solarstone doing in Estonia?

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs as Tesla in the U.S. The factory can assemble 13,000 integrated solar panels per month.

How many MW of solar power are there in Estonia?

Since 2020 we have completed development and construction of more than 62MW of solar capacity. We have more than 744MW of ongoing projects around Estonia in different municipalities which will be completed by the end of 2024. We are also working to incorporate storage systems to provide electricity when the sun is not shining.

How much solar power does Estonia have in 2022?

That makes another record-breaking year for solar on the continent, with a total of 10 GW more capacity added than expected. Regarding solar power per capita, Estonia has emerged as one of the new leaders. The country is ranked 6th among 27 EU members, with 596 Watt per capita in 2022, jumping from 405 in 2021.

Where is Solarstone based?

Solarstone, an Estonian producer of building-integrated photovoltaic (BIPV) solar roofs, has opened a 60 MW manufacturing facility in Viljandi, Estonia, to produce a broader range of design and performance specifications. Estonian BIPV specialist Solarstone said this week that it has built a new 60 MW factory in Viljandi, Estonia.

Is Estonia a bureaucracy-free country?

Estonia, one of the most bureaucracy-free nations in the world, has streamlined the creation of a manual of proceedings and identification of suitable areas for development with local authorities. The next step is to implement a one-contact-point system.
