Who is SATEC power metering?

Founded in 1987, SATEC is a market leader in the field of power quality analysis and power metering. SATEC was one of the first companies to pioneer this field, introducing one of the very first digital power meters, and ever since SATEC has made its priority to lead and innovate.

Who is SATEC for?

Offering multi-channeled meters, UL and MID certified meters and unique SAAS billing platforms, SATEC caters to commercial users and property managers such as shopping centers, office buildings and so forth. Learn about SATEC's global presence, innovative solutions, and dedication to customer satisfaction and quality.

Who is SATEC telemetry & energy management?

For over 35 years now, prominent global utilities and industrial leaders have made SATEC their go-to choice, for both off-the-shelf and bespoke solutions, for telemetry and energy management, working together with us on product design. SATEC designs, develops and manufactures in-house its full range of products, hardware and software alike.

What makes SATEC unique?

Aspiring to tailor-fit clients with optimized performance per cost, SATEC takes modularity to the extreme, presenting equipment and software available as basic platforms for further upgrade and expansion with diverse selectable functionality and a variety of ports and features.

Are SATEC meters a 'mini RTU'?

Combined with advanced control functionality (I/O) and advanced connectivity, SATEC meters are often applied as "mini RTUs". Today's industrial sector has high awareness of energy optimization and reduced carbon footprint.

How do SATEC devices work?

SATEC devices introduce a "one-CT" concept, doing away with the extra error factor incurred by external current transformers. This is accomplished by means of integral remote CTs - The HACS (High Accuracy Current Sensors).
