What is a flexopower power station?

The Flexopower power stations are state of the art. The first-generation was developed in collaboration with the University of Johannesburg to replace dual battery systems in overlanding vehicles, launched in 2018. Today, the 3rd generation power station offers the latest features and technology delivering 600W, 700W, 1200W, 1800W and 3000W.

Are flexopower solar panels good for camping?

The Flexopower brand is trusted by campers, overlanders, and commercial alike. Flexopower foldable solar panels are built with shingled solar cells and Teflon encapsulation, making them a trailblazer in output, durability, and aesthetics. This technology offers significant advantages during camping, including reduced losses due to partial shading.
