The French Southern and Antarctic Lands is an Overseas Territory of France. Due to their isolation, the French islands in the southern Indian Ocean comprise one of the last remaining large wilderness areas on Earth. Furthermore, the islands are positioned along the Antarctic Convergence, where upwelling creates nutrient-rich waters. As a result, birds and marine ...

Die von AXSOL entwickelten Energy Container Solutions (ECS) sind skalierbare Batteriespeichersysteme für Industrie, Infrastruktur und Versorger. Über die ECS-Plattform können individuell angepasste Speichersysteme aufgebaut werden.

Background. In February 2007, the Iles Eparses became an integral part of the French Southern and Antarctic Lands (TAAF). The Southern Lands are now divided into five administrative districts, two of which are archipelagos, Iles Crozet and Iles Kerguelen; the third is a district composed of two volcanic islands, Ile Saint-Paul and Ile Amsterdam; the fourth, Iles ...

All of the islands of the French Southern Territories have large populations of penguin, albatross, and seals. Early-20th-century introductions of rats, cats, rabbits, pigs and goats have now mostly been eradicated but left their mark on this fragile ECOSYSTEM. France declared the largest Exclusive Economic Zone (EEZ) in the world around the ...
