

French Southern Territories firefly energy

What is the French Southern Territories?

The territory is sometimes referred to as the French Southern Lands (French: Terres australes françaises) or the French Southern Territories, usually to emphasize non-recognition of French sovereignty over Adélie Land as part of the Antarctic Treaty System. The entire territory has no known permanently settled inhabitants.

What are the French Southern & Antarctic Lands?

The French Southern and Antarctic Lands are an overseas territory of France that consist of the following: Adélie Land (Terre Adélie): This is the French claim on the continent of Antarctica. Crozet Islands (Îles Crozet): A group of islands in the southern Indian Ocean, located south of Madagascar.

Are there trees in the French Southern Lands?

Because of their isolation and subpolar location, the French Southern Lands are relatively depauperate of vegetation, with both Saint-Paul and Crozet having no native tree or shrub species. However, eight of the 36 higher plant species are endemic.

The French Southern and Antarctic Lands are an overseas territory of France that consist of the following: Adélie Land (Terre Adélie): This is the French claim on the continent of Antarctica . Crozet Islands (Îles Crozet): A group of islands in ...
