How can the energy industry be diversified in Bhutan?

Diversification of the energy industry of Bhutan requires a significant uptake of renewable energy in end-use sectors and an overarching improvement in energy efficiency. Heating and transportation are two major arenas with tremendous potential for the adoption of renewable energy within their end-use sectors.

What is Bhutan's national energy efficiency and conservation policy?

Bhutan's "National energy efficiency and conservation policy" delineates a comprehensive set of energy efficiency and energy conservation measures for all sectors (DRE-MOEA, 2017). A concerted effort toward comprehensive implementation of these measures is an essential first step towards a sustainable energy system.

How can energy pricing improve energy efficiency in Bhutan?

Reforms to energy pricing can help level the playing field for renewable energy technologies, thus incentivising their uptake in both on-grid and off-grid settings. In the specific case of Bhutan, improving energy efficiency is a fundamental and cost-effective first step towards integration of renewables in all sectors.

How is the energy sector governed in Bhutan?

The energy sector of Bhutan is governed, planned and co-ordinated by two key ministries: the Ministry of Economic Affairs (MOEA) and the Ministry of Agriculture and Forests (MoAF).

How many power companies are there in Bhutan?

There are two major power utility companies in Bhutan: the Druk Green Power Corporation Limited (DGPC), and the Bhutan Power Corporation (BPC). The state-owned Bhutan Power Corporation (BPC) holds the main responsibility for transmitting and distributing electricity (ADB, n.d.).

Are heat pumps a viable option for space heating in Bhutan?

Powered by the hydroelectricity-based grid, these heat pumps offer a viable opportunity for increasing the penetration of renewable energy in heating end-uses in Bhutan. Air- and ground-sourced heat pumps, both of which run on electricity, are both viable options for space heating in Bhutan (DRE-MOEA, 2018).

Jsme malá regionální firma s instalacemi do 50 km od Hradce Králové. Obsluhujeme tedy Královehradecký a Pardubický kraj. Nase zamerení je na kvalitní a rychlý zákaznický servis, který muzeme poskytnout v rámci regionu.
