

Georgia best solar inverter

Who are the best solar companies in Georgia?

Among the shining stars in Georgia's solar landscape, Tesla and Palmetto Solar emerged as some of the best solar companies, promising to illuminate the path toward a greener, more sustainable home. The best solar companies in Georgia are Tesla and Palmetto Solar based on our research of customer satisfaction and service quality.

How many solar companies are there in Georgia?

According to data from the Solar Energy Industries Association (SEIA), Georgia is home to more than 85 solar providers. Each of these companies brings something unique to the table, whether that's the best solar panel brands, below-average pricing or outstanding customer service.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.

Are solar batteries a good investment in Georgia?

One of the most important and helpful incentives for solar customers across the country is net energy metering, which credits you for excess energy production and reduces your future utility bills accordingly. Georgia doesn't mandate net energy metering, but solar batteries can help mimic the program.

Does Georgia have a solar incentive program?

Georgia does not have any statewide incentive programs but there are programs through local communities or utility companies that can help homeowners finance solar. These include the Central Georgia EMC Home Plus Loan Program and the Georgia Power Home Energy Improvement Program.

How can I save money on solar energy in Georgia?

There are some Georgian local rebates, solar loan programs and other perks offered by individual electric companies for going solar. These include Central Georgia EMC. Another great option for reducing your system costs over time is to choose a company that can install solar batteries as part of your system.

We look for solar companies with owners who understand that when they sell you a solar system, you expect them to be there for the next 25 years to fix any issues that may arise.
