

German solar panel companies Aruba

Despite the country's modest potential for harvesting solar energy the Renewable Energy Act (), introduced in the year 2000 allowed for a rapid growth of Germany's solar power capacity. The number of solar panel producers and service companies skyrocketed quickly, as investors rushed to reap the benefits of the large-scale technology support under the EEG, which gave feed-in ...

But - as is often the case - back when Germany's solar reputation was soaring, some wanted to take advantage of it without doing the hard work of actually becoming good at making solar panels. This resulted in a slew of small Chinese manufacturers giving themselves German-sounding names in the hope of fooling people into thinking their ...
