What is Goldstar Energy Group?

GOLDSTAR ENERGY GROUP provides comprehensive energy management services customized to its business client's specific needs, from a team of seasoned energy management experts that only work with the most accredited suppliers in the industry. Our A+ accreditation is proof of the integrity and transparency that we offer to our clients.

What is Denmark's energy source?

More than two-thirds of Denmark's renewable energy comes from bioenergy, which is energy stored in organic material or biomass. Agriculture is big business in Denmark, and it indirectly helps provide energy too, with manure, animal fats, and straw used as the basis for biogas and liquid biofuels.

Does Denmark have a strong focus on securing sustainable biomass?

There is a strong focus on securing sustainable biomass in Denmark. The world's top innovators in wind energy include the Danish company Vestas and Siemens Gamesa, which has Danish roots. Together these two companies had a share of almost a third of global wind turbine installations in 2018, according to GlobalData (preliminary results).
