What is Guernsey Electricity?

Guernsey Electricity was adopted as the trading name in 1993 and became Guernsey Electricity Ltd in 2001 following commercialisation. Guernsey Electricity is the electricity supplier in Guernsey. In 1998, the Channel Islands Electricity Grid was established to operate subsea cables supplying electricity from Europe, giving a secure, reliable and affordable source of energy.

How many panels should a guernsey home have?

A typical Guernsey home has at least one roof that faces east, south or west, or a flat roof that may be open to all the sun's orientations. From a few panels to four panels or more and typically 6 to 10 panels, you can maximise your generation by maximising your roof spaces.

<p>Guernsey is one of the Channel Islands in the English Channel near the French coast, and is a self-governing British Crown dependency.
