What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Should you buy a solar PV system?

If you have the capital, the smart way to get solar is to pay for it outright. Buying your solar PV system upfront means you can recoup the cost from the start. This offers a better ROI than leaving the money in the bank. If you don't have the cash to hand, however, it's worth considering a loan.

Can a solar installer pay rent for a roof?

Installers can then sell any excess electricity generated back to the grid. Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity.

Can you buy a house with rent-a-roof solar panels?

Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage provider could be unwilling to lend.

How much does a photovoltaic system cost in the UK?

o A household in the UK installs a 5kW photovoltaic system costing £8000 (average cost), which would generate approximately 4320 kWh of electricity annually. o The annual SEG income in the UK would be £324 per annum.
