Hitachi Energy, the leading power, and automation group, will install its PowerStore, an integrated commercial flywheel technology to integrate with a battery system on Kodiak Island in Alaska to enable the integration of more renewable energy from an expanded wind farm to its microgrid and also to address stability challenges that will arise from a crane upgrade being undertaken to ...

Hitachi Energy, the leading power, and automation group, will install its PowerStore, an integrated commercial flywheel technology to integrate with a battery system on Kodiak Island in Alaska to enable the integration of more renewable energy from an expanded wind farm to its microgrid and also to address stability challenges that will arise ...

Today when climate change is a key concern, a small island in Denmark, Samsø, is demonstrating the green energy transition. Samsø is an island powered by renewable energy 100%. All the electricity requirement of this island is met by over 20 offshore and onshore wind turbines. Now, Samsø has set another ambitious target to be fossil fuel free ...

New Zealand's Scott Base and America's McMurdo Station in Antarctica are home to about 1,200 people in the summer. These important research stations have always relied on fossil fuels for power, but with the installation of wind turbines and the PowerStore in conjunction with Hitachi Energy's control technology, the reliance on fossil fuels has been greatly reduced.

Ross Island New Zealand's Scott Base and America's McMurdo Station in Antarctica are home to about 1,200 people in the summer. These important research stations have always relied on fossil fuels for power, but with the installation of wind turbines and the PowerStore in conjunction with Hitachi Energy's control technology, the reliance on ...

Hitachi Energy Sustainability Report 2024 Hitachi Energy Sustainability Report 2024 . Strengthening the power system Nostradamus AI: purpose-built for the energy industry Nostradamus AI: purpose-built for the energy industry . Expanding the power system 70 years of High-Voltage Direct Current technology ...

Welcome to Hitachi Energy's Customer Connect Center. This is your single point of entry for any questions on products, systems, or services across our wide portfolio. Experienced specialists are here for you 24 hours a day, 365 days a year.

Hitachi Energy, the leading power, and automation technology group, has delivered and commissioned a microgrid control solution that enables the island of Faial in the Atlantic ocean to add more wind energy to its power mix without destabilizing the network. ... The island of 15,000 inhabitants has an electricity network that operates as a self ...

Join us for the new edition of Transformer Connect, Hitachi Energy's series of cutting-edge live webinars where you can connect with our experts and listen to their news and updates on different topics. Last August, we attended CIGRE, the world's leading global power systems event, ...

Hitachi Energy is investing \$330m to expand and modernise its flagship factory in Ludvika, Sweden and establish a new campus in Vasteras, Sweden to enhance product portfolios. The Ludvika site will grow by more than 30,000m<sup>2</sup>, increasing the manufacturing capacity for large transformers and HVDC projects.

Hitachi Energy is investing \$330m to expand and modernise its flagship factory in Ludvika, Sweden and establish a new campus in Vasteras, Sweden to enhance product portfolios. The Ludvika site will grow by more ...

Hitachi Energy 2030 Plan. Advancing a sustainable energy future for all. Learn more. Customer Success Stories. Together with our customers and partners, we are co-creating global and local solutions to benefit society. See Customer Success Stories. News & ...

Uno de los principales beneficios de la Industria 4.0 es la capacidad de mejorar los procesos a través de datos y conectividad. Por lo tanto, en este webinar, le mostraremos cómo la última tecnología puede facilitar la predicción de fallas de activos y qué pasos puede tomar para prevenir esas fallas.

Hitachi Energy is a global technology leader that is advancing a sustainable energy future for all. We serve customers in the utility, industry, renewables, data center, transport and infrastructure sectors with innovative solutions and services across the value chain.
