

Help energy kyo Kosovo

Does Kosovo need a lignite power plant?

Kosovo, rich in lignite coal reserves, relies on outdated Yugoslav-era power plants that cannot meet its increasing energy demands. The 2023 National Energy Strategy aims to raise renewable energy to 35% of the energy mix, reduce greenhouse gas emissions by 32%, and phase out a lignite-fired power unit by 2031.

What does Kosovo's Energy Strategy look like?

The Government of Kosovo is currently finalizing a long-awaited energy strategy where it is expected to announce the eventual decommissioning of one of the coal-fired power plants, set a renewable energy target for 35 percent of all electric energy consumption by 2031, and further integrate in regional energy markets.

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.

Will lignite fill the gap left by the decommissioning of Kosovo?

The gap left by the decommissioning of the Kosovo A plant and the growing demand for energy is expected to be filled by a combination of renewable energy sources and new lignite generation.

Does Kosovo need a new energy sector?

Given this background, the Government of Kosovo has prioritized the modernization and improvement of the country's energy sector, and has asked its development partners, including the World Bank, European Commission, KfW, USAID, as well as other donors, for support and assistance.

How inherited issues have affected the energy sector in Kosovo?

The inherited issues after the war in Kosovo and the transition period have had an immense effect on the progress of this sector. Regulation of activities in energy sector in Kosovo is a responsibility of the Energy Regulatory Office (ERO).

After several years of pausing with activities in Kosovo, Help started with the project "Support to socio-economic stability through empowerment of micro business sector in Kosovo" in May 2015. ... (MFK) will soon launch the third and final component of the Women in Energy grant programme, which is designed for small companies and start-ups ...
