Because we can only get new equipment once a year, we want a workhorse of a battery. We are thinking along the lines of a 1000Ah/1500Ah 24 v forklift battery (or two). Does anyone have any experience using these with solar?

Honduras Residential Battery Market is expected to grow during 2023-2029 Honduras Residential Battery Market (2024-2030) | Value, Analysis, Companies, Share, Competitive Landscape, ...

A little off topic, but a lot of knowledgeable folks around home related tech here. I'm considering a whole house battery system. Ideally I would prefer something that integrates into Home Assistant, or really has a robust open API considering it's quite possible that the battery system will still be around when whatever comes after HA comes along.

I am considering purchasing an ev to use as a house battery. My cars get little usage and it seems wasteful to have both a house battery and car battery. I think that's called v2h as in become to home. Enphase is coming out with a system that allows this . They haven't disclosed which vehicles are compatible.
