

How to fold a small foldable storage cabinet

How do you maximize storage in a small space?

“The easiest way to maximize storage in a small space is to use as much vertical space as possible,” advises David Silva, an interior designer at home remodeling company HomRem LLC. “There’s usually a lot of wasted space around our home like under the bed, above kitchen cabinets, and even between our existing storage shelves.”

How do I find storage ideas for small kitchens?

The walls and ceilings are your best friends when it comes to finding storage ideas for small kitchens - and hanging racks can be used for anything, from pots and pans in the kitchen to accessories such as belts and hats in the bedroom.

Should a small home fold or slide out of the way?

In a small home, anything that folds or slides out of the way when not in use is unbelievably useful. Although it might sound like a complicated task to fit something like this on a DIY basis, there is actually no reason why it has to be.

How do you make a kitchen cabinet?

The carcass of the cabinet is made from 3/4” plywood sheets. I cut them down to size for my table saw height then prepped for joinery. I used pocket hole joinery to connect the panels and drilled holes in the top and bottom panels. I connected the parts with 1-1/4” screws. There are two vertical sliding panels on the cabinet on either side.

How do you attach a sliding panel to a cabinet?

For the sliding panels I attached a piece of blocking to each one with pocket screws. Then I attached a false front to each panel using the same method. All drawer fronts are spaced 1/8” from each other. I finished up the cabinet with drawer pulls. Each pull was spaced and placed using a cabinet hardware jig.

How do you put shelves on a plywood back?

Once the hinges are on the sides, I inserted the shelves back into place and set on top of the plywood back. The shelves hold the sides in place so I could then attach the hinges to the plywood back. These pictures show how the shelves lay flat and the sides fold out. The shelves are then slid into the slots.

Make a flat laundry folding table atop your washer and dryer, install a small laundry folding table next to it, and use the flat top of a storage cabinet as another laundry folding table. This is ideal for those without a lot of space to work with and who like to have many different stacks of neatly folded laundry for easier distribution.
