What is a cellcube energy storage device?

CellCube: The long-life vanadium-based energy storage device provides an uninterrupted power supply. It is available with a power output of 10 to 200 kW and a scalable capacity in the MWh range. This means that covering the base load, capping electricity peaks and securing supply to sensitive areas can be achieved at all times.

Who is cellcube?

CellCube intends to be a fully integrated producer of vanadium, vanadium electrolytes and vanadium redox flow batteries for the Energy Storage Market. We put 15 years of research and development into the CellCube to provide you with a top-notch energy storage system.

What is a cellcube used for?

With its simple and independent scalability in power output and storage capacity, the CellCube is already over 130 units in operation for individual industrial applications, to even out load peaks, for e-mobility solutions, for off-grid applications and for microgrid power supply in regions without a stable power grid.

Why should you choose a cellcube?

Based on the vanadium redox flow technology, the CellCube allows for a clean, emission-free and fast energy supply at all times. A stable power supply, in combination with renewable energy sources, is ensured at all times and in every climate zone. The use of vanadium electrolytes increases the safety and battery life.

Is a cellcube a good investment?

WORTHWHILE INVESTMENT Efficiency is best expressed. Especially if compared to diesel generators and conventional batteries, it quickly becomes clear that a CellCube pays off on a number of levels when it comes to the stable supply of telecommunications networks.

What is the difference between suncarrier 22 and cellcube FB 10-40?

Total Cost of Ownership Comparison: diesel generator and lead battery compared to SunCarrier 22 and CellCube FB 10-40 (period of 20 years). A 10 kW diesel generator charges a lead battery and powers the base station. When the battery is full, the generator stops and the lead battery powers the unit. Alternative: one CellCube FB 10-40...
