El Salam Co. for Fire Protection Import & Export was founded in 1965, under the management and control of the Company President, Gen. Fouad M. Soliman, who had been productively leading the importation of products and materials needed in the production of his one-man industry ownership. The efforts exerted by the family through the leadership ...

Ensure safe and organized storage of hazardous materials with Hoffen Egypt's chemical safety cabinets. Explore our range of high-quality storage solutions designed to meet international standards. Home

Safety cabinets keep dangerous liquids organized, labeled, and separate from work areas. Local and state fire codes often require chemicals to be stored in a safety cabinet to reduce the risk of fire and ensure workers have time to evacuate. Cabinets are often color-coded to help workers and first responders visibly identify cabinet contents.

Flammable safety cabinets are specially designed to store hazardous and flammable materials safely. Unlike normal storage cabinets, they feature fireproof construction, explosion-proof vents, and locking mechanisms to minimize fire risks and ensure compliance with fire codes and safety standards.
