What is Ebara & Elliott Energy?

Ebara Corporation and Ebara Elliott Energy are leading companies in the turbomachinery industry. They provide technology and products for reliable and efficient compressors, expanders, turbines, and pumps for power generation, refinery, petrochemical, and a wide range of sustainable energy industries.

What is ebara Elliott energy turbomachinery?

Ebara Elliott Energy turbomachinery is precisely engineered to operate efficiently and reliably, with minimal downtime for service or repair.

What is ebara Elliott energy's energy transition position?

Ebara Elliott Energy's Global Director of Sustainability Business Development HongPing Zhang outlines the company's energy transition position, highlighting how its platform offers advanced technologies. As we look around us today, it is clear we live in a world that is changing fast.

What is ebara Elliott energy's partnership with Saudi Aramco?

Ebara Elliott Energy (EEE), formerly Elliott Group, signed a manufacturing Memorandum of Understanding (MoU) with Saudi Aramco at the Japan-Saudi Vision 2030 Business Forum held in May, with the aim of further deepening relations between Japan and Saudi Arabia.

Why is ebara Elliott energy focusing on decarbonised process machinery?

Ebara Elliott Energy has focused on decarbonised process machinery in its product development for the last five years, including hydrogen, carbon dioxide, and other turbomachinery technologies needed in a sustainable global energy economy.

Ebara Elliott Energy, formerly Elliott Group, manufactures centrifugal compressors, steam turbines, and cryogenic pumps and expanders for a wide range of industrial applications in the petrochemical, refinery, and LNG markets, with a traditional focus on supplying customised large turbomachinery trains for the oil and gas and conventional power ...

Ebara Elliott Energy, formerly Elliott Group, manufactures centrifugal compressors, steam turbines, and cryogenic pumps and expanders for a wide range of industrial applications in the petrochemical, refinery, and LNG ...

Ebara Elliott Energy | 34,198 followers on LinkedIn. For more than 100 years, the world has turned to Elliott for the design, manufacture and service of critical turbomachinery. Our primary products are centrifugal and axial compressors, steam turbines, power recovery expanders, and lubrication and other auxiliary systems for rotating equipment. Elliott products and services are ...

United Technologies Corporation later acquired Carrier in 1981, which is when Elliott Turbomachinery, Inc. was founded. Fast forward to the year 2000, under Ebara Corporation, Elliott became a wholly-owned subsidiary. Ebara and Elliott's relationship dates back to 1968 when Ebara licensed technology to build Elliott turbines.

As the world's demand for energy climbs, Ebara Elliott Energy is doing its part to support the global energy transition. We are actively developing new and advanced technology solutions to produce cleaner energy and reduce greenhouse gas emissions.

For more than 100 years, Ebara Elliott Energy has been synonymous with innovative engineering, highly reliable products, and unwavering commitment to customer satisfaction. Since 2000, Ebara Elliott Energy has encompassed the global turbomachinery operations of its corporate parent, Ebara Corporation, headquartered in Tokyo, Japan.

Elliott's fully integrated engineering and manufacturing centers in Japan and USA are equipped with parallel manufacturing and testing capabilities, and a global supply chain to ensure quality and consistency for Elliott turbomachinery, regardless of manufacturing location. ... Ebara's compressor & turbine business operates as Elliott ...

Ebara Elliott Energy (EEE), a solution provider in the energy industry, on Tuesday announced a major electrical upgrade at its Jeannette, Pa., manufacturing facility. The upgrade will enable EEE to test compressors and electrical equipment up to 100 MW, or approximately 134 102 HP. Vice President of ...

Over the years, Ebara Elliott Energy has contributed to many industry-leading innovations in LNG service including: The world's first base-load LNG plant refrigeration compressors. The world's first gas turbine-driven compressors in an LNG plant. The world's first ...
