Ivory Coast is making big strides in its energy sector, focusing on renewable sources and improving access to electricity. The country aims to boost its energy capacity significantly in the coming years, with a strong emphasis on ...

How did Côte d"Ivoire manage to achieve this energy leap from 34 to 94% coverage of its national territory? In my opinion, there are two main reasons for this performance over the last 10 years.

Ivory Coast is aiming for an energy mix in which 42% will come from renewable energy by 2030. To help it achieve this goal, EDF signed a concession contract with the Ivorian government in December 2019 via BIOVEA Energie (owned with its partners Meridiam and Biokala, a subsidiary of the SIFCA group).

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country"s Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.
