

Jordan provaris energy

Who is provaris energy?

We're connecting the world to a clean energy future. Provaris is as an early mover in the future of energy, developing integrated green hydrogen projects for export to regional markets through the simplicity and efficiency of compressed hydrogen. On 3 May 2024, Provaris Energy Ltd announced that it is undertaking a Share Purchase Plan (SPP).

Does provaris have a hydrogen tanker?

That is the reality of the world Provaris will find itself in once its hydrogen tanker is complete, should it be completed, and that will be a different problem. But for now, the company is pressing on with its world-first vision.

Will provaris' hydrogen tanker recommence in 2025?

Adobe Stock HotCopper Fabrication of Provaris (ASX:PV1)'s prototype hydrogen tanker is now to recommence in 2025, pushing shares in the microcap up 5.8% to 1.8cps. The company has been working on a world-first hydrogen transport vessel for several years, slogging through COVID-19 and a severe hampering of momentum for the hydrogen market broadly.

Is provaris an impact investment?

While our business and future projects can create inherent positive impact, the adoption of the WEF framework has already paid ESG dividends. Provaris will update the market regularly on its ESG progress and seek to ensure the company remains an impact investment for shareholders and local communities.

Provaris is planning to be the world's first market-listed provider of compressed green hydrogen by sea from Australia to high-demand hubs in South-East Asia, and via key energy transition ports in Europe.
