The Cocos (Keeling) Islands are a group of 27 islands, and are composed of 2 atolls: North Keeling, and South Keeling. South Keeling consists of 26 islands in a horseshoe formation around a large lagoon (approximately 10 km across).

The Cocos (Keeling) Islands only have accommodation for 144 people at any time; therefore, booking accommodation when booking flights is strongly encouraged; The minimum stay is four nights, followed by seven nights due to flight timings. I recommend staying at least seven, as you'll quickly realise just how much of a paradise Cocos really is

Scuba diving at Cocos Keeling islands is nothing short of spectacular. Fabulous visibility, pristine coral reefs, abundant marine life and all the trappings of a tropical paradise without the flashy resorts. Yes, it is isolated and it takes some effort to get there, but this is more than offset by the quality of the diving, the friendly locals ...

The Cocos (Keeling) Islands are part of Australia's Indian Ocean territories. They consist of two atolls as island groups. North Keeling Island is an uninhabited designated national park. 27 kms to the south lie the Cocos Islands. They are comprised of 27 or so islands on the main atoll, only two of which are inhabited.

The Cocos (Keeling) Islands are a remote group of islands, forming a single horseshoe-shaped atoll and an isolated island, North Keeling, in the eastern Indian Ocean. They represent the only atoll that Charles Darwin visited and became central to his theory of coral reef development, and have played a central role in several subsequent debates ...

The Cocos Keeling Islands Community Resource Centre has been operating since 2002, providing services to local businesses, residents and visitors to our wonderful Islands. We are a not for profit community based organisation that provides integrated technology and

Exploring the Cocos Keeling Islands is a journey best experienced on the water, where each tour provides a new perspective of the two atolls' marine world. After my adventure on Direction Island, I am eager to explore more of the islands, and the motorised canoe tour with Cocosday is the perfect way to dive deeper. ...

The Cocos (Keeling) Islands consist of two flat, low-lying coral atolls with an area of 14.2 square kilometres (5.5 sq mi), 26 kilometres (16 mi) of coastline, a highest elevation of 5 metres (16 ft) and thickly covered with coconut palms and other vegetation.

The Cocos (Keeling) Islands were visited by Charles Darwin who used observations made there to develop his theory of the formation of coral reefs and atolls.. Geography. The Cocos (Keeling) Islands consist of two flat, low-lying coral atolls located 1720 miles (2,768 km) north-west of Perth, 2,290 miles (3,685 km) due west of Darwin, and approximately 621 miles (1,000 km) south ...

The Cocos (Keeling) Islands consist of two flat, low-lying coral atolls with an area of 14.2 square kilometres (5.5 sq mi), 26 kilometres (16 mi) of coastline, a highest elevation of 5 metres (16 ft) and thickly covered with coconut palms and other vegetation. The climate is pleasant, moderated by the southeast trade winds for about nine months of the year and with moderate rainfall. Tropical cyclones
