Will Guam get 330 megawatts of solar power by 2028?

Workers could be seen at the site of the Mangilao Solar Project on Aug. 12, 2021. The Guam Power Authority wants to award two major contracts for solar farms in Dededo and Sånta Rita-Sumai, the first two in a series of projects which are anticipated to add a huge 330 megawatts of power to the grid by 2028.

Does core tech solar have a legal dispute with Guam Waterworks Authority?

Commissioners did raise some concerns about the award to Core Tech Solar, as affiliate company Core Tech International is currently locked in a multi-million-dollar legal battle with the Guam Waterworks Authority. GPA needs approval from the CCU, before taking the contract awards to the rate-setting Public Utilities Commission for final approval.

How much does a solar farm cost in Mangilao?

Immediately after the Ukudu groundbreaking, GPA and KEPCO officials proceeded to Sasayan Valley in Mangilao for a ribbon-cutting that marked the official launch of the island's largest solar farm. The 60-MW Mangilao solar farm began operating last month, generating energy under the contract purchase price of \$0.085/kWh.

In 2015, Guam's first commercial solar PV facility--the 26-megawatt Dandan solar farm with more than 120,000 solar panels--began operating. 56 The facility can generate enough electricity to serve an estimated 10,000 homes. 57 The 60-megawatt Mangilao solar farm came online in 2022, and the planned 41-megawatt Malojloj solar farm is scheduled ...

Thousands of photovoltaic solar panels glisten against the backdrop of the blue ocean in Sasayan Valley in Mangilao, heralding a new era of clean energy production on Guam. Power officials and project contractors ...
